Logical and Organized individual with a strong foundation in Computer Science. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Looking forward for seeking experience in the industry

SKILLS

Technologies	:	C++, OOPs, Data Structures , DBMS
Technical Skills	:	Javascript, ReactJS, Node.js, Express.js, MongoDB, Python
Soft Skills	:	Problem Solving, Communication Skills, Time Management

EDUCATION

Vellore Institute of Technology   Chennai
B.Tech in Computer Science Engineering   *July 2019 – May 2023*

Atomic Energy Central School   Tarapur
Class XII   *April 2018 – April 2019*

PROJECTS

Tech Emporium: A MERN Stack E-commerce Platform   MongoDB, Express, ReactJs, NodeJs

- Built a full stack eCommerce platform for Electronics and Gadgets with React, Redux, Node, Express and MongoDB
- Provides a seamless user experience with intuitive product browsing, shopping cart functionality, and secure payment processing.
- Built a scalable and robust backend API using Node.js and Express.js to handle product management, user authentication, order processing, and payment integration.

CarDekho application Clone (OnGoing)   MongoDB, Express, ReactJs, NodeJs

- MERN-powered car search app: Search, manage listings, all the bells and whistles for a modern, dynamic car hunting experience
- React-driven web app inspired by carDekho with a focus on replicating its core functionalities
- NodeJS Express backend with MongoDB for efficient data management and scalability

ServiceWheels : A Garage Application   Springboot, React, MongoDB

- Created a full-stack application for managing data of automobile service .
- This is a java Spring Boot application, which provides REST API with endpoints for searching, creating and deleting server objects.
- User can add/update details of automobile.
- Developed a user-friendly frontend web interface using ReactJs.
- The server objects are saved in MongoDB database.

CERTIFICATIONS

- Fundamentals of Data Analytics
  - NASSCOM certification course on Data Analytics
- Fullstack Project with spring boot and react
  - Udemy course for building java fullstack applications using React and Spring boot
